

September 30, 2021

Dear Residents and Loved Ones of Good Samaritan Linden View,

As we progress through the COVID-19 outbreak at Good Samaritan Linden View, I wanted to provide you with an update. Currently we have no active cases of COVID-19 – all symptomatic testing of residents has come back as negative. While this is great news, I assure you that our employees continue to remain diligent and follow all safety measures currently in place.

As per the direction of the Medical Officer of Health, we will not be conducting any further asymptomatic testing of residents. We continue to work closely with public health officials and all precautionary measures currently in place will continue until they advise us otherwise. This includes limiting visitors to designated essential visitors only.

As a reminder, for those that are unable to come in to have a social visit, virtual visits can be arranged by contacting the care home, or visit our website ([www.gss.org](http://www.gss.org)) and use our Well Wishes tool to send a message or photos to any resident in our care.

As you may be aware, all residents that were eligible for their third dose of the COVID-19 vaccine were immunized on September 27. For any residents who have not been immunized and would like to be, or should you have any questions or concerns, please contact Laurel Sryda, Site Manager at (403) 223-6552 for details on how to have this completed.

We truly appreciate your support and understanding during this outbreak.

Sincerely,

Edythe Anderson,  
Vice President and Chief Quality Officer
