

November 13, 2021

Dear Residents and Loved Ones of Good Samaritan Vista Village,

I'm happy to let you know that the COVID-19 outbreak at Good Samaritan Vista Village has been declared over by public health. Since my last letter to you on October 28, no additional cases of COVID-19 were identified and all residents and employees have now recovered.

Although the COVID-19 activity has declined in our surrounding communities we must all remain vigilant and follow public health guidelines and restrictions. This includes continuous masking for the duration of your visit inside our care home or out in the community.

We sincerely thank you for your support and understanding during this outbreak.

If you have any questions or concerns, please contact Logan McInnes, Manager, Site and Clinical Services at (403) 627-1900.

Sincerely,

Edythe Anderson
Vice President and Chief Quality Officer
