

January 5, 2021

Dear residents and loved ones of Good Samaritan Spruce Grove Centre,

I am happy to report that Public Health has advised the outbreak for our care home is now declared over. While this is excellent news, I can assure you that our employees remain diligent and are following all of the Chief Medical Officer of Health directives.

At this time, we continue to only allow designated family and support visitors into the care home. We kindly ask that all designated visitors evaluate their own need to be physically present based on the resident's needs, and then reach out to the care home to pre-schedule their visits. Of course, compassionate care visits will also continue as necessary.

Please be advised that we have been notified by Public Health that residents will be able to receive the COVID-19 immunization on January 16 and the second dose on February 13. This is positive news and an important step in our fight against the COVID-19 virus.

I would strongly encourage you to continue to contact the care home to arrange virtual visits, or visit our website (www.gss.org) and use our well wishes tool to send a message or photos to any resident in our care. We appreciate your assistance in helping to keep all of our residents and employees safe.

Thank you for your patience as we've managed this latest outbreak. We appreciate your support, as do our employees. If you have any questions or concerns, please reach out to Lisa Miller, our site manager, by calling (780) 962-3415.

Sincerely,

Scott Fielding
Vice President of Operations, Quality, and Clinical Supports
