

September 9, 2021

Dear Residents and Loved Ones of Good Samaritan Pembina Village,

Further to our last communication, I want to provide an update on the COVID-19 outbreak status at Good Samaritan Pembina Village. I am happy to report that no further cases of COVID-19 have been identified and public health has declared this outbreak to be over. While this is excellent news, I can assure you that our employees remain diligent and continue to follow all of the Chief Medical Officer of Health directives.

Also, a friendly reminder that screening processes upon entry to the care home and continuous masking in resident care areas and in common spaces are still required as part of the public health requirements.

As COVID-19 cases continue to rise significantly in the community, we would like to encourage everyone eligible to get immunized against COVID-19 as soon as possible. Immunization protects yourself and others and helps to prevent severe illness and hospitalization.

If you wish to be immunized and you are a resident, please reach out to your site manager for details on how to have this completed. If you are a family member and would like further information, please visit the [Government of Alberta](#) website and book your appointment today. Finally, I would like to sincerely thank all of our residents, their loved ones, and our employees for their patience and assistance as we've managed this most recent outbreak. It is truly a team effort, and we are very appreciative to everyone involved.

If you have any questions or concerns, please contact Laurie Brown, Site Manager for Good Samaritan Pembina Village at (780) 727- 4441.

Thank you,

Edythe Andison,
Vice President and Chief Quality Officer
